AMOS LAYMAN, Editors.

COLUMBUS, OHIO: PURSDAY MORNING APRIL 11

The Election on Monday. The election for Members of the Board of Education in the First, Third, Fifth, Seventh and Ninth Wards of the City of Coumbus, on Monday, excited much less interest than its importance demanded. In the midst of the rejoicings over the crawning victory of the war, many voters in ese Wards forgot all about the election, and failed to go to the polls. The result, howver, is as gratifying as we had any reason to hope. The Democrats elected the Memhere of the Board in the Fifth, Seventh, and Ninth Wards; and the Republicans elected their men in the First and Third Wards. This makes the new Board, politically, the same as the old Board-leaving it

Here is the result: Thomas hough 65 George S. Deming

ph Sullivant 136 Thomas Sparrow Fifth Ward. 104 Scattering Seventh Ward. Frederic Fisser 169 John Rich Ninth Ward. S. W. Andrews 136 R. E. Champion

n the hands of the Democracy.

Mr. Powell's Picture in the Senate. The question of taking Mr. WM. H. Pow-ELL's picture of PERRY's Victory on Lake Erie, and paying him the price named in his memorial (\$15,000) was discussed in the Senate during the greater part of the session yesterday afternoon. The bill for the purchase of the picture at the price named was at length declared to be passed by a vote of 18 year to 12 nays. A motion to reconsider the vote was lost. The names of the yeas and nays will be found in our report of yesterday's proceedings in the Senate. The bill now goes to the House for its concurrence. What will be its fate

in that body we do not pretend to know though it was confidently asserted in the Senate yesterday by the opponents of the bill that it could never pass the House in its present shape.

Among those who spoke in opposition to

paying Mr. Powers \$15,000 for his picture, were Messrs. Eggleston and Gunckel The former gentleman was particularly warm and caustic in his remarks. He con-tended that, as the original contract was for \$5,000, the State was bound to pay no more. If a different painting from that originally contracted for, had been made, there was no obligation to take it, or if the State did take it, the General Assembly could only allow the artist the contract price. They had no power to go beyond the letter of the bond. Still he (Mr. EGGLESTON) was willing to allow for the reduction in our carrency since the contract was made, and pay Mr. Pow-ELL \$7,500 for his picture. Or he would consent that he should be paid the \$5,000

out of the gold in the State Treasury.

Messrs. Converse, Lang, Willett. O'CONNOR, STEVENSON, and others, urged the propriety of paying Mr. Powell the sum named in his memorial. It was admitted that the painting was different from the one originally contemplated by the parties; but it was superior to that in design, in taste and artistic finish. The uniwas, without exception, in commendation of the picture as a work of art. As to the price, while on exhibition at Washington it had been pronounced by amateurs worth at the least \$15,000. Some had rated it at \$25,000 and even \$25,000. The State had been advised to purchase it by such men as WM. DENNISON, JOHN SHERMAN, S. S. COX and others of her eminent citizens.

Define were many other arguments ad-

duced in favor of taking the painting at the price named by the artist. But we have not space to even glauce at them. It was, however, urged that as it was commemorafive of the greatest naval victory ever achieved by the American navy—one of which every American was justly proud and as it would be an ornament corresponding to the magnificence of Ohio's Capitol in which it would be placed, no narrowmindedness should prevent her citizens from being permitted to call this great pleture their own, and viewing it when they visited their own House in the Capital

[From The World, April 5.] Since the peace which established our independence this country has known no such joyful day as that which followed the capture of Richmoud. Indeed, never before has the emotion of heartfelt and patriotic joy swelled in so many breasts on a single day since the world began. When the splendid victories of Trafalgar or of Waterloo went flying down the high-roads from London to all of England's borders, in the haddled mail-coaches; fly as they might, the sun rose and set again, long before the racing horses and the thundering wheels had kindled their last volleys of sympathizing cheers which ran before and behind their course. But on Monday morning one of General Grant's telegraph operators, sitting in a room at City Point, pressed a little ivory key, and How Much Nearer the End? telegraph operators, sitting in a room at clity Point, pressed a little ivory key, and on the instant all the cities of the North, and the villages and the towns from the James to the Androscoggin, and from the Atlantic to the Pacific seas, felt the electric pulse, and before that day's sun had left his last rays on the shores of Oregon, nearly twenty millions of people were unitedly rejoicing that such a good blow had been struck for the honor and unity of the nation, and that we were by so much the nearer to the end of this desolating war.

How much nearer are we to the end of the war?—is the question which every man asks himself who reflects; which every man who speaks tries to answer to his neighbors. Unconsciously, every orator gives voice to the general desire and feeds it with promises and hopes. The whole moral significance of this general jey is, that it is the spoken prayer of the nation's heart to be at peace.

howanuch nearer we are to the end of the war. No man of sound judgment to-day believe that the Confederacy can establish itself east of the Mississippi. Perhaps it is impossible that Lee and Davis can withdraw ble that Les and Davis can withdraw rules to Texas, or, succeeding in naparalleled exodus, that they can y months prolong a contest there, has no hopeful issue, and it still requestion for Mr. Lincoln to decide, can nearer the defeat of Lee and the

capture of Richmond shall bring as to the United States and the rest of mankind may gratify the soaring ambition of gentlemen For however hopeless may be the southern cause, we, who have brought their rids and their hopes to the dust, have as et given them no better alternative than o fight on, though fighting hopelessly—will be. Lincoln now issue such a procamation as shall make it better for the solution against the lawful audiers still fighting against the lawful authority of the Government to stop fighting, lay down their arms, and disperse to their homes? The answer to that question will decide how much hearer we are to the end of the war. Such a proclamation as the President might now with honor and dignity send forth from the Capital of the Con-federacy would scatter the Southern armies, exile their leaders, restore the authority of the Government, lose no just indem-nity for the past, and let slip no needful security for the future.

THE OHIO LEGISLATURE.

MONDAY, April 10, 1865. SENATE.

The following bills were passed:
House bill to repeal section two of the act
for the relief of the poor, passed March 14,
1859. The repealed section is one that prevents any black or mulatto person from gaining a legal settlement, but allows direc-tors of infirmaries, in their discretion to

grant relief to such persons.

Mr. Monroe's House bill to transfer a certain fund to the poor and township fund of Ottawa township, Allen county, and for the relief of soldiers' families. The House bill providing for the establishment of a Soldiers' Home was taken up, and the time occupied in its discussion and

amendment, until recess. AFTERNOON SESSION. Senate bill to amend the act to authorize the incorporation of joint stock insurance companies, passed April 11, 1856, was amend-

ed and passed.

House bill to establish a Soldlers' Home being the special order, Mr. Eggleston moved to amend by inserting a substitute, by providing a State military fund to be raised by an annual tax of one-fourth of a mill on the dollar, for the payment to each dis-abled Ohio soldier a pension of ten dollars per month. The amendment was agreed o, and the bill referred to the Finance com-

Senate bill to authorize the purchase of Powell's painting of Perry's victory on Lake Erie, was taken up. The question being on filling the blank in the bill with \$15,000 as the purchase money for the paint-ing, it was discussed at great length, but was finally carried by a vote of 16 yeas to 14 nays. The bill as amended was put upon its passage, and the vote stood: YEAS-Messrs. Bates, Connell, Converse Devin, Gass, Gunckel, Hall, Hart, Howard.

Stanbery, Stevenson, West and Willett. NAYS-Messrs. Curtis, Eggleston, Humphreyville, Jamison, Loudon, McBurney, McKenzie, Patton, Stanton, Wickham, Wil-

Howells, Lang, Martin, Newton, O'Connor,

liamson and Wilson.-12. A question was raised as to whether the bill did not require a majority of two-thirds of all the members elected to the Senate, which would be 23. The President, however, after some discussion on the point, declared the bill passed. A motion to reconsider the vote on the passage of the bill was lost by a tie vote—14 to 14. Reces till 9 o'clock A. M., to-morrow.

HOUSE OF REPRESENTATIVES. MORNING SESSION.

The House agreed to the Senate amend-ment to the House bill authorizing councils of cities of the second class to borrow money to purchase land for parks, which amendment limits its provisions to cities of not less than 20,000 inhabitants.

The House was occupied until recess in considering various messages from the Sen

AFTERNOON SESSION. Mr. Harrison offered a joint resolution which was adopted, requesting the Governor to cause to be fired, at 6P. M. of this day, 100 guns in honor of the great victory achieved by the compulsory surrender of Gen. Lee's army.

The Senate Railroad Commissioners' bill was taken up, and Mr. Harrison's substitute

for the same agreed to, and the bill ordered to its third reading to-morrow.

The House then went into committee of the Whole on the Senates amendments to the General Appropriation bill. After some time spent thereon, the committee rose, and the House took a recess till 9 A. M. to-

Governor's Proclamation. THE STATE OF OHIO.)
EXECUTIVE DEPARTMENT,

April 8, 1865.

The God of Battles has blessed our armies, and the glorious cause of human freedom. under His approving smiles the patriotic and brave men in the field have achieved unparalled triumphs. The rebel Capital has been conquered, and given back to the Union, and the army that held it in rebellion has been broken and scattered. The military power of the rebellion—the strong-est obstacle to peace—has received a terri-ble shock, and our gallant armies are pur-

suing it to final extinction.

For all this we owe praise and thanksgiving to Almighty God, recognition of the
services and sacrifices of our noble soldiers, and rejoicing over the triumph of the right, the crushing of the rebellion, and an early return to peace and prosperity in the land. It is, therefore, recommended that Friday next, the 14th day of April—being the anniversary of the fall of Fort Sumter—be generally observed by the people of the State, as a day of thanksgiving to God, and of general rejoicing; that religious assemblages and observances mark the day, and the evening be given to bonfires, illuminations and the thundering of artillery, public assemblages and speeches, and such othand rejoicing over the triumph of the right

lic assemblages and speeches, and such other manifestations as may be suggested, to appropriately mark the beroic deeds of our armies, and the general joy of our people at the early restoration of the Constitution and good government.
Witness my hand at Columbus the day and year above written.
John Brough.

By the Governor: F. A. Marble, Private Secretary.

A "Loyal" Paper on a "Loyal" Legislature.

(From The Cincipant Commercial, April 7th.)

THE LEGISLATURE.

We have a remarkable Legislature. No subject is too insignificant for its supervisory care, and none too exalted to be beyond the range of its comprehensive statesmanship. It seizes upon the multitudinous aftairs of men with an apparent desire to omit nothing, and a generous intention to de something for every body. Its versatility is unsurpassed. It proposes to correct abuses in the sale of skimmed milk; it places its restraining hand upon the truant inclination of— We have a remarkable Legislature. No

nation of—
"The whining school-boy, with his satchel and shining merning face, creeping like a snail. Unwillingly, to school."

It legislates one day on the gas question, another upon telegraphs, and third upon schools; it becomes agricultural, horticultural, educational, scientific; and anon, moves with an easy grace from the consideration of the best means of putting down Canada thisties; to the consideration of the speediest method of putting down rebellion, and discourses wisely upon Federal relations, and the co-ordinate and separate powers of the State and Federal Governments; branches out upon the affairs of the world generally, and Mexico in particular, and in each and all its phases exhibits such profundity of information and wisdom, as to leave the world in despair to determine in which particular it most surpasses itself.

All the legislation needed for the government of the people of

needed for the government of the people of Ohio should have been completed weeks ago. The disposition to legislate for the

sphere of usefulness, but they must remember that wisdom will not die with them, and that the happiness and prosperity of mankind does not depend exclusively upon them. If they succeed in doing wisely all that is needful for the welfare of the people they represent, they will accomplish more than is expected of them. If they are faithful in a few things the people will find it out, and put them hereafter where they will have opportunity to be useful in many things. The best thing they can do now is to finish up their business and adjourn. The sooner the better.

[From The Ohio Farmer, April 8th.] The Wool Trade. In the Eastern market during the past week, sales have been very limited. Of the falling and sales in New York, The Economist of Saturday remarks: The wool mar-ket was never known to be in so unsettled and unsatisfactory a condition. There are holders of Ohio wool who will not accept less than 8216c; others who are not inclined to accept the current rates; then, again, there are those who are willing to meet the market and sell at the figures now ruling. In the present clouded condition of things it is impossible to hazard an opinion with safety. One man's judgment to-day is as good as another, and what course things will shape for the future is a mystery. Still we are of the hopeful order, and be-lieve there is much behind a black cloud sometimes. The sales include 200,000 pounds, at prices ranging from 55 cents to 80c, including 10,000 lb. nice Illinois at 55c; 28,000 New York State, throwing out bucks, unwashed and heavy, 60c; 8,000 light. Ohio, 65c; 10,000 State and Pennsylvania, 65 to 67m 35,000 Illinois State, and Ohio 68 65 to 67e; 35,000 Illinois State and Ohio, 68 to 80c; 1,500 Indiana, 70c; 5,000 Michigan, 70c; 5,000 State and Michigan and light, 69 to 70c; 3,000 Illinois 60c; 4,000 Illinois 60c; 2,000 black Canada, 57c; 11,000 coarse Ohio, 75c; 10,000 Illinois, 25,000 Ohio, 57,000 State on private terms; some tub washed, 87%c; 25,000 pulled, 70 to 75c; 10 bales city super, 66c; 3,000 lbs. Chicago pulled, 60; 10,000 lbs. California, 55c; 200 bales unwashed Donskoi, 17 unwashed Persian, 42 bales East India, (part 2814c gold) 40,000 lbs. River Platte, in bond for Canada, 30,000 long German, all on

private terms, and some Cape 42½c."

In Boston The Shipping. List reports that the sales of the week comprised 150,000 lbs. fleece and pulled, at prices ranging from 70 to 95c per lb., as to quality. Included in the sales was a lot of 8,000 lbs. good Ohio at 76c, and the transactions over 80c were early in the week, and would not be any criterion of the present market value. We quote common and medium grades of Western at the close, at 65 to 70c, and good and choice lots at 75 to 80c, and it would be difficult to get over 80c for now on the market. Canada combing wools are scarce, and for small lots about previous prices continue to be realized, 2000 lbs. choice selling at \$1 30 per lb. In foreign wool, apart from the auction sale the transactions have been quite imited, and prices have been entirely nom-

Election in Toledo—Heavy Demo-cratic Gains.

The Democratic candidates for Mayor and Marshal of this City were elected by large majorities on Monday last. Mayor Dorr had 1.117 majority over the regularly nominated Republican candidate, and Col. Bond had 640 majority over E. S. Hank, independent Republican candidate. This is an average gain of about 1,000 since the November election. The news from Richmond was received in the forenoon, Democratic flags were unfurled, and the party workers labored with a zeal that nothing but such tidings could have inspired, and the result shows how effectually they labored. What city can show a better gain than Toledo? Old times are returning freighted with old fashioned majorities.— Toledo Record.

J. BARTELL, Agt.

By authority o the Secretary of the Treasury the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three-tenths per cent. inerest per annum, known as the

SEVEN-THIRTY LOAN.

These Notes are assued under date of August 15th 1864, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per Cent. GOLD-BEARING BONDS.

These bonds are worth a premium which in reases the actual profit on the 7-30 loan, and its exemption from State and Municipal Jaxation adds from one to three per cent, more, according to the rate levied on other property. The interest is payable in currency semi-annually by coupon attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to One cent per day on a \$50 note. Two cents " " " \$100 " Ten 5500 ... 41 44 44 \$1000 44 44 44 44 \$5000 46

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions, and the notes forwarded at once. The interest to 15th June next will be paid in advance. This is THE ONLY LOAN IN MARKET now offered by the Government, and it is confidently expected that its superior advantages will make

GREAT POPULAR LCAN OF THE PEOPLE. Less than 300,000,000 of the Loan authorized by the last Congress are now on the market. This amount, at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscrptions to

other Loans, In order that citizens of every town and section o the country may be afforded fac'lities for taking the Ioan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscriber will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

\$40 in money, and some Notes and papers. The
finder will be liberally rewarded by leaving it at this
office.

BOARDING.—A FEW DAY HOARD-

SPECIAL NOTICES.

A FEW REASONS WHY THE AMERICAN WATCH

IS THE BEST. It is made on the best principle, while the foreig watch is generally made on no principle at all. The foreign watch is mostly made by women and boys. BY HAND. While their labor in cheap, their work dear at any price. Such watches are made without rlan, and sold without guarantee. They are irregular in construction, and quite as irregular in move-

ment. They are designed only to sell, and the buy-

er is the party most thoroughly sold. These who have kept "sucres," "lepines" and "Swiss levers" in professed repair for a few years will appreciate the truth of our statement. THE PLAN OF THE AMERICAN WATCH. Instead of being made of several hundred little Watch is formed of SOLID PLATES. No jar in-terferes with the harmony of its working, and no sudden shock can throw its machinery out of gear.

In riding or any busine is pursuit, it is all held together as firmly as a single piece of metal. It is just what all machinery should be-1st. ACCURATE, 2d. SIMPLE, 3d. STRONG. 4th. ECONOMICAL. We not only secure CHEAPNESS by our system but QUALITY. We do not pretend that our Watch

can be bought for less money than the foreign makebelieves, but for its real value it is sold for one-half OUR SOLDIER'S WATCH (named Wm. Ellery) is what its name indicates-Solid, Substantial, and always Reliable-warranted to stand any amount of Marching, Riding or Fighting.
OUR NEXT HIGHEST QUALITY OF WATCH

(named P. S. Bartlett) is similar in size and general appearance, but has more jewels, and a more elabor-OUR LADIES' WATCH, recently brought out. is put up in a great variety of patterns, many of them of rare beauty and workmanship, is quite our Young GENTLEMAN'S WATCH is nest, not large, and just the thing for the pocket of Young America.

THE PROOF of the merits of our Watch may be found in the fact that we now employ over seven hundred workmen in our factories, and that we are still unable to supply the constantly increasing de OUR THREE-QUARTER PLATE WATCH IS thinner and lighter than the others we have described. Its fine chronometer balance is delicately adjusted to correct the vibration caused by changes of temperature. These watches are the fruits of the latest experiments in chronometry, and are made by

factory. For the finest time-keeping qualities they challenge comparison with the best works of the most famous English and Swiss makers. ROBBINS & APPLETON, Agents for the American Watch Company, mch24-d&wlm

our best workmen, in a separate department of our

A CARD TO INVALIDS.

A Clergyman, while residing in South America as a missionary, discovered a cafe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Uripary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Promted by desire to benefit the afflicted and unfortunate, I will send the receipt for preparing and using this medicine, in a scaled envelope, to any one who needs it.

Free of Charge.

BUTLER'S FIASCO
At Fort Fisher/was someony a greater failure than
is daily made by most of the advertised hair dyes; TERRY & PORTER'S VICTORY More complete, perfect and glorious, than the con-

quest achieved by CHRISTADORO'S HAIR DYE Over gray, red and sandy heads of hair. The ob-noxious hue is wiped out in five minutes, and a magnoxious hue is wiped out in five minutes, and a mag-nificent brown or black, glossy and natural, takes its place. Manufactured by J. CHRISTADORO No. 6 Astor House, New York. Sold by Druggista Applied by all Hair Dressers. [moh24-d&wlm]

PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their prac-tice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated .-When they are better known sudden death and continued sickness will be of the past. Let those who know them speak right out in their favor. It is a daily which will save life.

Our race are subject to a redundancy of vitiated bile at this season, and it is as daugerous as it is provalent: but Brandreth's Pills afford an invalua-ble and efficient protection. By their occasional use we prevent the collection of those impurities, which when in sufficient quantities, cause so much darger to the body shealth. They soon cureliver complaint, dyspepsia, loss of appetite, pain in the head, heartburn, pain in the breast-bone, sudden faintness and costiveness. Sold by all respectable dealers in medicines.

Death Cannot touch those who use Hoback's Bitters.

While Roback's Bitters are kept in the family oir-ole sickness never enters. These Bitters have been found to be a perfect antidate for removing the first symptoms of nearly all diseases, if taken in the proper time. They are composed of ingredients, which are known by the medical faculty to be most efficacious in disorders of the stomach and intestines.

Their medicinal properties are so various that they prove beneficial in all complaints, of whateo-over tature they may be; hence their great demand and the universal good derived from their use.

A judicious use of these Bitters imports the rese-tint of health to the cheeks, and health and vigor to the entire frame.
